This Triumph replacement parts catalog supplement describes the parts which are unique to the 1978 T140E model.

The "Remarks" column refers to page (PG) numbers and reference (REF#) numbers which are contained in the March 1978 T140V Replacement Parts Catalog (99-7003). In most cases, these indicate the T140V component which has been changed on the T140E.

PLEASE NOTE: T140V SPECIFICATIONS AND PARTS HAVE NOT CHANGED

The "Replaces" column in this supplement refers to parts which have been changed for production of the T140E.

The only illustration used in this supplement is an exploded view of the AMAL Mark 2 carburetor. Some carburetor components which are not illustrated are included in the listing. They are grouped with associated parts. Where possible, related components are listed together so that assemblies may be identified.

This T140E supplement contains the following sections:

- Manifold and tappets
- Cylinder block and head, T140E
- Carburetor, T140E
- Frame
- Air cleaners and side panels
- Fenders
- Control cables
- Headlamp and flasher lamps
- Miscellaneous

IMPORTANT

The 1978 Triumph T140E complies with EPA emissions requirements in effect for motorcycles manufactured after January 1, 1978.

Standard carburetor settings are as follows:

AMAL type..... R2930/1, L2930/2
Main jet..... 200
Needle jet..... .105
Needle type..... 2C3
Needle position..... 2
Throttle valve cutaway..... 3
Pilot jet..... 25
Starter jet..... 50
Primary air jet..... 3.5

DO NOT CHANGE ANY SETTING UNLESS IT IS NECESSARY TO DO SO
Use of other than standard carburetor settings on an emission-controlled Triumph may violate emission requirements.

AMAL Parts Information

Some AMAL parts, in particular jets and throttle valves, have a basic part number and differ in size only, for example:

#25 pilot jet part number is 124/026-25
#50 starter jet part number is 124/026-50

#200 main jet part number is 376/100-200
#190 main jet part number is 376/100-190

#2 1/2 throttle valve part number is 2928/060-212
3 throttle valve part number is 2928/060-3
#3 1/2 throttle valve part number is 2928/060-312

Pilot jets are available in the following sizes:
#15, 20, 25, 30, 35, 40, 50

Main jets are available in most sizes from #50 to #900 to service all years and models equipped with AMAL carburetors.

These parts are available to service pre-emission controlled Triumphs which may be updated with AMAL Mark 2 carburetors.
